

Resinous Innovation: Stonhard Floors Transform a Children's Hospital

Products Used: Stonres® RTZ • Stonclad®UT
Application Area: Operating Rooms, Kitchens

PROBLEM

A nonprofit pediatric hospital in Omaha, Nebraska, required floors for a kitchen and several operating rooms. Stonhard's two-decade partnership with the project's architect led to their involvement. The hospital's planners sought easy-to-clean, decorative floors that were stain resistant and ergonomic.

SOLUTION

Stonhard recommended Stonres RTZ, a seamless urethane flooring system for the operating rooms and Stonclad UT, a urethane flooring system formulated for food environments for its kitchen. In all, Stonhard crews installed 32,000 sq. ft. of decorative, ergonomic, sound-absorbent flooring in 13 operating rooms and 8,000 sq. ft. of thermal-resistant, chemical-resistant, easy-to-clean, flooring for the hospital's kitchen.

Hospital planners loved the beautiful aesthetics of the new seamless floors, while operating room staff were delighted with the ergonomic comfort and stain resistance they offered.

DESIGN ELEMENTS

Stonres RTZ: 'Canvas' color with 'Charcoal' color cove base, resin chips
Stonclad UT: 'Mushroom' color

OUR CERTIFICATIONS & MEMBERSHIPS

Stonhard is committed to sustainability and transparency. We are proud members of the U.S. Green Building Council, a member of the Manufacturer Advisory Panel for the HPD Collaborative, and our products are listed with mindful MATERIALS (mM).

THE STONHARD DIFFERENCE

Stonhard is the unprecedented world leader in manufacturing and installing high-performance seamless, resinous floor, wall, and lining systems. With more than a century of experience, Stonhard provides its customers with a single-source warranty covering both products and installation.
